Get to know FLOORBALL
Get to know FLOORBALL!

Floorball is one of the biggest indoor sports in northern Europe and it is continuously growing all over the world. In many countries it has become one of the most popular sports for physical exercise, offering various levels for all types of people.

What makes floorball so popular might be that it is such an easy sport to play. You just need some sticks, a ball and a couple of friends to get the game going! At work places, in teams or maybe just for a good time when playing with friends, floorball has something for everyone.

Floorball is an indoor team sport that was developed in the 1970s in Sweden. Floorball is most popular in countries where it has a long history, such as Sweden, Norway, Finland, Switzerland and the Czech Republic. The game is played indoors on a gym floor, making it an all year sport at the amateur and professional levels. In the major floorball countries there are professional leagues, such as the SSL in Sweden, the Salibandyliiga in Finland and the SML in Switzerland.

In addition to the countries above, floorball is gaining popularity in countries all around the world such as Australia, Canada, Germany, Russia, Japan, Singapore and the USA. There are currently 54 member countries in the International Floorball Federation (IFF) and the IFF is continuously growing. The World Floorball Championship is held once every two years for both men and women. The sport has received IOC recognition to become an Olympic sport in the future, which is the major goal for the IFF.

Welcome to the world of Reactor floorball!
**Reactor Star**

Reactor Star is the top of the line stick in the Reactor stick range and it is approved by the IFF. Reactor Star has a composite shaft that comes with a sticky gripband and together with the blades ACE or VOLCANO it makes a great combination for a perfectly balanced floorball stick.

Reactor Street is the perfect stick for playing floorball outdoors. We have created a well balanced and light weight floorball stick with an extra durable blade that will work perfectly on surfaces like asphalt or concrete. The blade consists of nylon which is much more sustainable compared to other blade materials and this will make the stick a long-runner when playing outdoors. This stick is perfect for schools where the sticks are often used outdoors in different conditions.

**FLOORBALL – THE HISTORY**

1968 – The first ever floorball game is played in Gothenburg, Sweden.

1972 – UNIHOC, the biggest floorball brand in the world, is founded in Gothenburg, Sweden.

1979 – World’s first floorball club, Sala IBK, is founded, by Christer Gustafsson in the Swedish town Sala.

1981 – In Sweden the first floorball federation in the world is founded.

1985 – The first national game is played between Sweden and Finland, a game where Sweden won 13-1.

1986 – The IFF (International Floorball Federation) is founded in Huskvarna, Sweden.

1986 – The Swedish Elitserien, now called Svenska Superligan (SSL), is launched.

1989 – The size of the goals is increased, to reach today’s official IFF measurements. 160 x 115 cm is now the correct size for an official match goal.

1993 – The first national game for women is played between Sweden and Norway. Sweden wins 8-0 and Carina Powell scores the first goal.

1993 – The European Cup is founded and all national club team champions in Europe are allowed to participate.

1994 – The first European Championship takes place in Finland and the IFF gets new members. Japan becomes the first member country in Asia and USA becomes the first member country in North America.

1995 – The Salibandyliga is founded in Finland.

1997 – The first World Floorball Championship for women is played in Åland, Finland.

1999 – South America’s first country, Brazil, joins the IFF family.

2001 – ZONE, another big floorball brand, is founded in Mölnlycke, Sweden.

2008 – IFF receives their recognition from IOC to become an Olympic sport.

2010 – Africa gets its first member country, Sierra Leone, into the IFF.

2010 – Finland wins their second straight WFC gold medal in Helsinki. Patrik Mäki is the top scorer and wins several awards.

2011 – IFF officially welcomes the IFF in to its family of International Sports Federations (ISF). Sweden wins the Ladies WPF in Belgium.

Floorball is played five against five with one goalkeeper in each team. Goalkeepers normally sit on their knees when playing and a line has two defenders, one center and two forwards to establish a good combination of defense and attack.

Floorball is played with a rink around the field, almost like ice hockey, but the floorball rink is lower, only 50 cm high.

Floorball is played indoors on a playing field that normally measures 40 x 20 meters. That is also the recommended size from the IFF and it is the count size on which they play all official games organized by the IFF.

Floorball is played with a rink around the field, almost like ice hockey, but the floorball rink is lower, only 50 cm high.

Floorball is played with a rink around the field, almost like ice hockey, but the floorball rink is lower, only 50 cm high.

Floorball has a lot of rules to keep in mind. To be able to maintain a good level between a physical and a technical game, the games normally have two referees.

Floorball has a lot of rules to keep in mind. To be able to maintain a good level between a physical and a technical game, the games normally have two referees.

Floorball is normally played 3 x 20 minutes with two 10 minute intermissions. The younger the players are the shorter the playing time will be. Every new match and every new period start with a face-off.

Floorball has a lot of rules to keep in mind. To be able to maintain a good level between a physical and a technical game, the games normally have two referees.

Floorball has a lot of rules to keep in mind. To be able to maintain a good level between a physical and a technical game, the games normally have two referees.
Renew Group Sweden AB is active within the sports business and the focus is mainly on floorball. The company was founded in 2001 with the brand ZONE which has continuously grown since then and is today available in a large number of markets around the world.

In 2004 the company also acquired the brand UNIHOC, which today is the leading floorball brand in the world and marketed in more than 50 countries.

As the third brand in the portfolio Renew Group Sweden AB has REACTOR FLOORBALL, to be able to cover the whole floorball market. REACTOR FLOORBALL is focusing more on beginners and new markets compared to ZONE and UNIHOC and together these three brands create a perfect mix that covers all types of floorball all around the world.

Renew Group Sweden AB is located in Mölnlycke, Sweden, and also has sales office in Stockholm, Sweden together with two international sales offices in Chur, Switzerland and Greven, Germany.
